

W.J. Mouat is a school that creates for its students a classroom culture that supports deep learning.

Differentiated Instruction and Assessment

**Develop and
Assess a
demonstration of
learning project or
product**

Each teacher will develop, implement and assess one demonstration of learning project or product and prepare students to present to a public audience

**Implement and
develop a variety
of common
assessments**

Staff will collaborate to create and implement a variety of assessments using common language that assess product development and oral presentation skills.

**Further develop,
define and refine
our differentiated
practices**

Staff will commit to incorporating the inclusive practices and strategies of differentiation to ensure equitable access to learning and demonstrations of understanding.
