### **# 3. A note on Self Reporting Grades**

UFV students do not need to self report as long as you have registered for STS and made UFV one of your selections through your Student Transcript Services.  
**SFU, UBC, UVic all require self -reporting!!**

Self-reporting is the process of submitting your up-to-date grades electronically to the university Undergraduate Admissions office so they can give you a timely admissions decision. If you are currently a Grade 12 student from BC, you will be required to report your grades using the online self-reporting tool. You can access the self-reporting tool on the [Student Service Centre](#) (SSC) or check your email from the institution you have applied to. Self-reporting is mandatory and failure to self-report will result in an automatic cancellation of your application.

#### **What do you report?**

Your Final marks for grade 11 courses and interim or final marks for grade 12 courses.

#### **When do you report?**

As soon as you have some midterm marks for your second semester, usually around mid-March. The self reporting portal is slightly different at each institution.

**\*Check your email for detailed information from the institution of your choice.**
