How to Complete Grade 11

Required vs Elective Course

Some courses you must pass and others you do not in order to graduate.

For example, you must pass English 11 before you can do English 12.

Summer School

Some courses you can take in summer school and others are not offered.

AVS/Online

Discipline and determination

If you know that you have failed one of the required courses in semester 1 and you did not repeat it in semester 2, you must sign up for that course when you are selecting courses for next year.

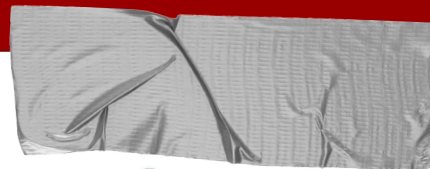

Indigenous Content

Between grade 10 to 12, you must complete at least one Indigenous focused course in order to graduate.

This means that you could take an English First Peoples 10, 11, or 12

A Social Studies option: Contemporary Indigenous Studies 12 or BC First Peoples 12

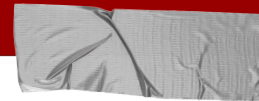

Did you know...

- You must pass one Fine Art (Music, Art, Drama) or Applied Skills course (Business, Drafting, Foods, Textiles, Metal, Wood, Power Technology, Electronics and Robotics) at the grade 10, 11, or 12 level before you graduate. *Languages, Fitness & Conditioning, Outdoor Ed., PE, Student Leadership, Work experience, and Journalism do NOT count as a Fine Art or Applied Skill credit*

- A second language is not required to graduate in BC

Electives

- You have 6 elective choices/5 if FI in grade 12.

I Bet You Didn't Know...

You build the timetable

The courses we offer are based on what you and your peers choose now! This is your best opportunity to get the courses you want. In August, the timetable is already built and you will have to choose from whatever has space available.

So make wise choices now.

Languages

You do not need a language 11 to graduate; however, Bachelor of Arts program from UFV requires a second language credit prior to UFV graduation if not completed in high school.

If you speak and write Farsi, French, Spanish, Punjabi, Mandarin, Korean or Japanese you can apply with the Delta School District to write the Language Challenge exam (apply in October each year).

Course Planning Guide

Go to the WJ Mouat website to get detailed descriptions of each course and to make sure that you have the correct prerequisites.

Parents & Students → Course Planning → Course Selection Guide

Post Secondary

- This is the time to start researching options and requirements for post-secondary institutions.
- Since each post-secondary and each program has differing, specific, and often changing requirements, it is impossible to summarize or generalize entrance requirements.
- Each post secondary institution has a website that clearly outlines requirements for students entering from high school.
- It is YOUR responsibility to ensure that you have the course and mark (%) requirements for admission. Ms. Solgaard in the Career Centre can assist you but you'll need to do some of the leg work on your own.
- Use Education Planner BC to search and apply to all BC post-secondary institutions.

Do I have to plan my entire life by February 17th?

- BREATHE! No, but if you plan on pursuing post-secondary education, it is important to do your research. Ensure that you are choosing courses that will keep your doors open for admission.
- Research post-secondary websites, see Ms. Solgaard, talk with your counsellor and your parents.
- University-approved courses do tend to fill up so make wise choices. Also ensure that you can handle the academic rigour of the courses as you cannot drop them part way through.
