# How to Complete Grade 9

## Required vs Elective Course

Some courses you must pass and others you do not in order to graduate.

For example, you must pass English 9 before you can do English 10.

## Summer School

Some courses you can take in summer school and others are not offered.

The only grade 9 course offered at summer school is Math 9.

If you know that you have failed one of the required courses in semester 1 and you did not repeat it in semester 2, you must sign up for that course when you are selecting courses for next year.

# I Bet You Didn't Know...

## You build the timetable

The courses we offer are based on what you and your peers choose now! This is your best opportunity to get the courses you want. In August, the timetable is already built and you will have to choose from whatever has space available.

So make wise choices now.

## Languages

You do not need a language 11 to graduate; however, Bachelor of Arts program from UFV requires a second language credit prior to UFV graduation if not completed in high school.

If you speak and write ASL, Farsi, French, Spanish, Punjabi, Mandarin, Korean or Japanese you can apply with the Delta School District to write the Language Challenge exam (apply in October each year).

## Course Planning Guide

Go to the WJ Mouat website to get detailed descriptions of each course and to make sure that you have the correct prerequisites.

Parents & Students → Student Services → Course Planning → Course Selection Guide

## Indigenous Content

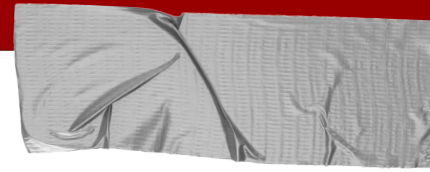

Between grade 10 to 12, you must complete at least one Indigenous focused course in order to graduate.

This means that you could take an English First Peoples 10, 11, or 12
